Lennox Head Public School Behaviour Support and Management Plan

Overview

Lennox Head Public School is committed to explicitly teaching and modelling positive behaviour and to supporting all students to be engaged with their learning. Our Behaviour Support and Management Plan has been developed to cultivate a school-wide safe, respectful, and inclusive learning environment that fosters academic excellence and personal growth.

Our daily practice is grounded in the principles of positive behaviour support, inclusive practice, trauma-informed care, and social-emotional learning. High expectations for student behaviour is embedded through effective role modelling, explicit teaching, and planned responses

Our three key values of Respect, Responsibility and Integrity and our school-wide expectations, underpinned by the PBL framework, embrace the principles of equity and responsibility. This plan aims to guide students in embracing positive behaviour and nurturing positive social interactions, in addition creating a solid framework for addressing behavioural challenges.

In compiling this plan, our school contributors have consulted with the following Department of Education policies and supporting documents:

Detention, reflection and restorative practices

Lennox Head PS has a restorative approach to behaviour. It requires students to take responsibility for their actions, understanding the impact of their behaviour, and willingness to work together with staff to find solutions. It is not a punitive approach to behaviour management, ensuring our implementation of restorative practices involves open conversations and collaboration between students, families, and staff. - improve positive behaviour, support inclusion, learning opportunities for all, student attendance, and educational outcomes.
- develop honesty, personal responsibility, accountability, empathy, emotional literacy, conflict resolution skills, positive learning behaviour, our environment, and independence.
