

Lennox Head Public School relocation

Planning update | November 2023

Project overview

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$8.8 billion for new and upgraded schools. This targeted investment in growing communities will ensure working families get access to a world class public education.

We are currently planning for a relocated Lennox Head Public School on a new site. The project will provide new, flexible learning spaces to support contemporary approaches to teaching and learning, and new core school facilities including a hall, library, canteen and outdoor areas.

As part of the NSW Government's commitment to deliver expanded access to early childhood education, planning for this school will include an on-site public preschool.

Progress summary

- Detailed site investigations have been carried out for the new school site at the corner of Montwood Drive and Snapper Drive, Lennox Head.
- The business case, which outlines the proposed site layout, scope of work, and approach to delivering the school, has been finalised.
- The architectural design process is underway.

Next steps

- Continue to develop the detailed design for the school classrooms, facilities and outdoor spaces.
- Prepare the documentation and consultant reports that will be submitted as part of the State Significant Development application.

Further information

We look forward to sharing an overview of the project proposal including the school size, scope of works and concept design, with the community once the business case has been endorsed by NSW Treasury.
